BA/QA - Junior/Intermediate Business Analyst/Quality Assurance

We're looking for a Business Analyst with 1 to 3 years of experience to support our product fulfillment operations. The person in this position would be interacting with operations and development groups to define and deliver custom products on time and on budget. The incoming Business Analyst would develop the requirements for projects and individual customer sites, ensure solutions meet those requirements via initial planning, test case plan and then manage deployment communication.

Requirements

- 1 to 3 years of writing business requirements and related documentation (functional specs, system diagrams, etc.)
- 1 to 3 years of writing test cases and driving activities and communication around testing
- Minimum 2 years of building web applications
- Minimum 1 year of setting up QA process, templates and related material
- English language

Nice to have

- Data analysis and data management experience
- Strong excel skills

Desired Traits

- Common sense
- Detailed oriented
- Strong work ethic

To Apply

Please forward applications to jobs@yconic.com, including a cover letter and resume. We thank all applicants for their interest; however only those candidates selected for an interview will be contacted. No agencies please.
